

TMRA Amateur Radio Beacon

August 2008

Tech Classes

Technician (entry-level) classes are scheduled for Saturday, August 23rd and Saturday, September 6th, 8am to 5pm at the Lucas County CERT Training Center. There is no charge for the class itself, but you should have a textbook (The ARRL Ham Radio License Manual) that you can obtain beforehand from the ARRL or from us for a nominal fee (about \$25.00.) Check on the cost when you contact us. When it is time to take the test at the end of the class, there is a charge of \$14.00 to cover expenses for the test. Please have exact cash. Also, bring a valid picture ID and copies of any other previous licensing or CSCE's you may have with you.

Note: Morse Code is no longer a requirement for any Amateur License.

Contact Mike, WA8SYD at 419.476.2947 or Steve, KC8TVW at 419.467.3734 to express your interest in the class.

OHIO QSO Party Aug 23

Make sure you have the correct date for OHIO QSO party.

This is a short note to all ARRL members in Ohio that there has been misinformation about the dates of the Ohio QSO Party. It is Saturday, August 23 to Sunday, August 24. Here is a short note from Jim Stahl, K8MR, about misinformation which I repeat for everyone - many other ham radio sources may make this mistake as well.

Joe Phillips, K8QOE
Ohio Section Manager

The Calendar of Events in the August 2008 "CQ Magazine" (page 96) erroneously lists the Ohio QSO Party as being on August 30-31. It is actually on Saturday, August 23, to Sunday, August 24. There are no contests listed for the weekend of August 23-24. I suspect there are wrong dates for several of the others listed for August 30-31.

I hope to see you all in the OQP on SATURDAY, AUGUST 23! Full info at www.oqp.us.

Jim Stahl, K8MR

Next TMRA meeting is on Wednesday, August 13.

ARRL Membership Newsletters, Bulletins And Notifications

Did you know the ARRL offers more newsletters than The ARRL Letter? One of the many ARRL membership benefits includes other newsletters, such as the ARRL Contest Update (a bi-weekly contest newsletter), the ARES E-Letter (sent monthly, containing public service and emergency communications news), the ARRL Club News and the ARRL Instructor/Teacher E-Letter

You can also elect to receive news and information from your Division Director and Section Manager (keep in mind that not all Divisions/Sections send notices), as well as W1AW bulletins that relate to DX, propagation, satellites and Keplerian reports. The ARRL also offers a free notification service to members, letting them know when their membership and license are due to expire.

Sign up for these newsletters, bulletins and notifications on the Member Data page of the ARRL Web site <<http://www.arrl.org/members-only/memdata.html>>.

From The ARRL Letter Vol. 27, No. 30 August 1, 2008

July VE Test Session

At the July 12th Test Session in Maumee, Thomas, KD8IZV and Tim, KD8IZU, both earned their Technician License. Congrats to both.

Thanks to the VE's who volunteered.

73,
Stacey NS8W

**Adrian Hamfest is September 14
at the Lenawee County Fairgrounds.**

The TMRA Swap 'N Shop is a service of the Toledo Mobile Radio Association, and open to all amateurs or interested persons in the coverage area of the repeater, newsletter, or website. The TMRA reserves the right to decline to accept any listing. Any descriptions of items listed are those of the person listing the items. Items are kept on the Swap 'N Shop list for a period of four weeks, or five Sundays on the air after which they are dropped from the list. Renewals are welcome, but please notify me promptly when there is no longer a need to continue a listing. When the TMRA Amateur Radio Beacon is published each month, the then current Swap 'N Shop listings are included in the newsletter (at the editor's discretion.) Prices are not mentioned over the air, but if known, will be shown in the newsletter or on the website.

There are several ways to list items of Amateur Radio interest: Check into the Swap 'N Shop Net Sunday evenings after the Information Net (approximately 9PM EST.) on 147.270 Mhz repeater.
